WebCode Ltd, Elephant Road, Dhaka — *Lead Soft. Developer*

October 2013 - December 2015

I was playing the “Lead Software Engineer” role in this company.

- Led team of 8 Software Engineers.
- Created 15+ WordPress Themes & Plugins
- Build Enterprise Solutions Application like “ERP”
- Helped to build cPanel servers.

DecentThemes, Chapainawaganj — *Sr. Soft. Engineer*

May 2015 - Current

It was my first and failed startup. The company was founded for developing WordPress Plugins and Themes.

- Led team of 4 designers and developers to create things for the startup
- Crafted 20+ Products for Envato Marketplace
- Created WordPress themes for local clients
- Deployed a number of servers for customers.

Nawab Tech (NawabHost), Dhaka — *System Administrator*

August 2012 - December 2020

Nawab Tech is providing domain and hosting solutions for Bangladeshi people. It was my own business and I’ve managed everything to keep service best as customers can expect.
